

Meet the People

The Explore International Staff members have been called and are committed to their role in furthering the ministry. Each of us and in collaboration with our partners is fully devoted to serve the people and facilitate a life changing experience. This step demands discipline and responsibility.

Explore International has attracted many people of diverse gifts and backgrounds. We have full-time, part-time and volunteer staff members. Staff members range in educational background; we have extensive experience in the worlds of business and ministry. We bring a wide range of skills, gifts, and viewpoints to the organization. We are unified by our commitment to each other and our desire to embrace our mission.
