

Mission Trips

Change your life as a Christian. Short-term missions give you the chance to experience the Gospel like no other. Emerge yourself with Cuban pastors and brothers and sisters of the faith exploring the power of the Gospel in Cuba.

See what God is doing in Cuba, and be a part of it by supporting these ministries with humanitarian aid and prayer. Cuba is a communist country where people and churches struggle daily to survive under the meager living conditions and food supply. With a population of over 11,451,652 people, the Church needs your help in spreading the Gospel.

Mission Trips to Cuba are very different from mission trips to other countries due to its communist government and the often complex relations between the U.S and Cuba. In spite of that, Echocuba recognizes the value of learning first-hand about life in Cuba and the limitations, challenges, and obstacles faced by its people and has set up the structure to conduct individual and group short-term mission trips to Cuba. In order to legally travel to Cuba under U.S. regulations, you need a valid travel license, which our organization can provide.

Through its Short-Term Mission Trips Explore International seeks to provide unique opportunities for US-based churches to learn about the growing but suffering Christian Church in Cuba and partner with them to facilitate mission trips and to provide support to those who need it most in the island. Itineraries are tailored to provide a comprehensive understanding of the struggles, joys, dreams and daily lives of fellow Christians and pastors in Cuba.
